

PRODUCT FEATURES:

- With Moving Parking Guide Lines.
- Butterfly mount for a wide variety of mounting installation locations.

PARTS INCLUDED:

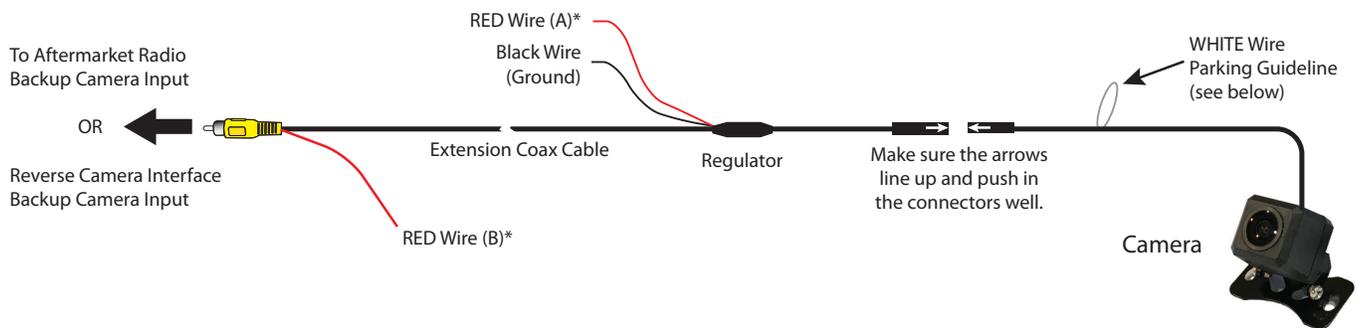

CML-21 CAMERA

EXTENSION CABLE

INSTALLATION DIAGRAM:

***NOTE:** The camera needs a +12V trigger. Power the camera at the headunit using RED Wire B or from the reverse light wire using RED Wire A. **DO NOT** connect both wires to +12V at the same time. Insulate the red wire that is not being used. Tap the Black wire to an existing ground lead, or ground Black wire securely to vehicle body metal.

Loop Wire Color	Function	Joined	Cut
White	Parking Lines	ON (default)	OFF
